

CONTENTS

Issue 1

Articles

- An Evaluation of Non-Iterative Estimators in Confirmatory Factor Analysis
Sara Dhaene and Yves Rosseel
- 14 Bayesian Inference of Dynamic Mediation Models for Longitudinal Data
Saijun Zhao, Zhiyong Zhang, and Hong Zhang
- 27 Dynamic Fit Index Cutoffs for Hierarchical and Second-Order Factor Models
Daniel McNeish and Patrick D. Manapat
- 48 Leveraging Observation Timing Variability to Understand Intervention Effects in Panel Studies: An Empirical Illustration and Simulation Study
Andrea Hasl, Manuel Voelke, Charles Driver, Julia Kretschmann, and Martin Brunner
- 64 The Impact of Ignoring Cross-loadings on the Sensitivity of Fit Measures in Measurement Invariance Testing
Chunhua Cao and Xinya Liang
- 81 Revisiting Savalei's (2011) Research on Remediating Zero-Frequency Cells in Estimating Polychoric Correlations: A Data Distribution Perspective
Tong-Rong Yang and Li-Jen Weng
- 97 The SEM Reliability Paradox in a Bayesian Framework
Timothy R. Konold and Elizabeth A. Sanders
- 118 Temporal Misalignment in Intensive Longitudinal Data: Consequences and Solutions Based on Dynamic Structural Equation Models
Xiaohui Luo and Yueqin Hu
- 132 The Impact of Omitting Confounders in Parallel Process Latent Growth Curve Mediation Models: Three Sensitivity Analysis Approaches
Xiao Liu, Zhiyong Zhang, Kristin Valentino, and Lijuan Wang
- 151 Studying Between-Subject Differences in Trends and Dynamics: Introducing the Random Coefficients Continuous-Time Latent Curve Model with Structured Residuals
Julian F. Lohmann, Steffen Zitzmann, and Martin Hecht

Teacher's Corner

- 165 Benefits of Doing Generalizability Theory Analyses within Structural Equation Modeling Frameworks: Illustrations Using the Rosenberg Self-Esteem Scale
Walter P. Vispoel, Hyeri Hong, and Hyeryung Lee
- 182 Latent Growth Models for Count Outcomes: Specification, Evaluation, and Interpretation
Daniel Seddig

Book Review

- 199 *Review of Machine Learning for Social and Behavioral Research (Methodology in the Social Sciences)*
Aszani Aszani and Ruslan Anwar

Issue 2

Articles

- 205 Causal Mediation Analysis for an Ordinal Outcome with Multiple Mediators
Yuejin Zhou, Wenwu Wang, Tao Hu, Tiejun Tong, and Zhonghua Liu
- 217 Label Switching in Latent Class Analysis: Accuracy of Classification, Parameter Estimates, and Confidence Intervals
Meng Qiu and Ke-Hai Yuan
- 233 Improving the Statistical Performance of Oblique Bifactor Measurement and Predictive Models: An Augmentation Approach
Bo Zhang, Jing Luo, Susu Zhang, Tianjun Sun, and Don C. Zhang

- 253 Latent Class Analysis with Measurement Invariance Testing: Simulation Study to Compare Overall Likelihood Ratio vs Residual Fit Statistics Based Model Selection
Zsuzsa Bakk
- 265 Deep Learning Generalized Structured Component Analysis: An Interpretable Artificial Neural Network Model with Composite Indexes
Gyeongcheol Cho and Heungsun Hwang
- 280 Evaluating the Performance of the LI3P in Latent Profile Analysis Models
Russell P. Houpt, Kevin J. Grimm, Aaron T. McLaughlin, and Daryl R. Van Tongeren
- 296 Comparing MIMIC and MIMIC-interaction to Alignment Methods for Investigating Measurement Invariance concerning a Continuous Violator
Yuanfang Liu, Mark H. C. Lai, and Ben Kelcey
- 310 Comparing Factor Score Approaches to SEM in Multigroup Models with Small Samples
Emma Somer, Carl Falk, and Milica Miočević
- 329 Performance of Estimation Methods in Bifactor Models with Ordered Categorical Data
Ismail Cuhadar and Ömür Kaya Kalkan

Teacher's Corner

- 340 A Note on Evaluating the Moderated Mediation Effect
Chi Kit Jacky Ng, Lok Yin Joyce Kwan, and Wai Chan
- 357 Univariate Autoregressive Structural Equation Models as Mixed-Effects Models
Steffen Nestler and Sarah Humberg
- 367 Combined Logistic and Confined Exponential Growth Models: Estimation Using SEM Software
Phillip K. Wood

Book Review

- 380 Review of *Handbook of Structural Equation Modeling* (2nd ed.)
Jam Khojasteh and Ademola Ajayi
